

**US based IT company “Findability Sciences” recruited MCA students of MIT**

Aurangabad (India): *“Passion is the master key for successful entrepreneurship. Indian IT students have capability to go ahead of time and design excellent solutions for mankind. Mark Zuckerberg – Facebook creator, Bill Gates – Microsoft Founder, Linus Torvalds – Linux architect are few examples of the entrepreneurs who converted their ideas into actions during their studentship.”* expressed Anand Mahurkar, CEO & President, Findability Sciences, Boston, USA.

Anand guided students of MIT with reference to today’s and tomorrow’s IT world. He emphasized that research based study, industry oriented syllabi are badly needed for Indian varsities. Professor should have full freedom to update the course contents on market-need basis. Munish Sharma, Director General, MIT, Dr Ramesh S. Babu, Principal, MIT and faculty members from IT division discussed with Anand today.
