## MIT student Pusphendra Chavan recruited by Red Hat

Mr Pushpendra Chavan, BTech student of MIT, has been selected by **dream company** “Red Hat” for its Indian operations “Red Hat Software Services ( India ) Pvt Ltd.” to provide front line support in enterprise linux server administration. Mr Pushpendra completed the global certifications “Red Hat Certified System Administrator ( RHCSA)” and “Red Hat Certified Engineer ( RHCE )” from MIT Red Hat Academy. Pushpendra from the village Chopada, District. Jalgaon, learned his engineering education with very hardship as there was negligible finance-support from home. Now, he became role-model to all budding engineers.

Red Hat, the world's leading open source and Linux provider, is headquartered in Raleigh, North Carolina, USA with satellite offices worldwide. Red Hat is leading Linux and open source solutions into the mainstream by making high-quality, low-cost technology accessible. Red Hat provides operating system platforms along with middleware, applications, and management solutions, as well as support, training, and consulting services to customers worldwide and through top-tier partnerships.

MIT and Red Hat jointly launched the MIT Red Hat Academy in year 2005 to offer the corporate training in open source software technology, Red Hat Enterprise Linux, Jboss, Open office, PHP, MySQL , Apache, Open Java, Security Network Services etc.

Till date, more than 300 candidates have been trained by MIT in Enterprise Linux and subsequently assessed by Red Hat USA and finally awarded its most rewarding certification “RHCE”. The distinguishing feature of assessment is – testing actual performance of candidate on live servers.

Mr Munish Sharma, Director General of MIT, felicitated Pushpendra Chavan for his achievement. Dr S.Ramesh Babu, Principal, MIT Technology, Prof B N Kshirsagar, Incharge, MIT Red Hat Academy and Prof Seema Chaudhary, Head of Computer Science & Engineering Department and all teachers from Computer department congratulated Pushpendra today.
